The forensic sciences can be very much
 improved in any laboratory
 by using the most modern methods
 of analysis and of record
 of results. The use of the
 microscope and of the spectrometer
 and of the balance are of course
 essential. The use of the
 microscope is especially important
 in the study of the structure
 of the tissues. The use of the
 spectrometer is important in
 the study of the chemical
 composition of the tissues.
 The use of the balance is important
 in the study of the weight

Средства борьбы с вредными насекомыми и болезнями растений
используются в течение всего года. Для борьбы с вредными
насекомыми используют различные препараты, такие как
аэрозоли, порошки, растворы. Одним из основных средств
является использование инсектицидов. Кроме того, можно
использовать биологические препараты, такие как бактерии,
грибы, вирусы. Для борьбы с болезнями растений используют
фунгициды, бактерициды, вируциды. Одним из основных
